ASPIRING SOFTWARE DEVELOPER

EDUCATION

Kcc Institute of Technology and Management

Btech computer science and engineeting
2023- 2027

PROFESSIONAL EXPERIENCE

I am a dedicated and curious learner currently building a strong foundation in programming and software development. With hands-on experience through personal projects and active involvement in tech communities like GDG Gurugram, TFUG Delhi ,I've worked with technologies such as HTML, CSS, JavaScript, React, Python, and C/C++. I'm passionate about creating user-friendly, practical solutions and continuously expanding my skills. Eager to contribute to meaningful projects, I'm looking forward to gaining real-world experience and growing through collaboration and learning.

PROJECTS

Ment AI   **GITHUB**   **Live Demo**

MentAI is a React-based chatbot application that aims to provide emotional support, personalized recommendations, and mood tracking features. It uses natural language processing and machine learning algorithms to understand and respond to user inputs.

Amazon Clone   **GITHUB**   **Live Demo**

This project is a clone of the popular e-commerce website Amazon, created using only HTML and CSS. The goal is to replicate the look and feel of the Amazon website, focusing on the user interface and layout.

Age - Well   **GITHUB**   **Live Demo**

A modern, AI-powered web application for personalized nutrition and wellness tracking—tailored for individuals across all age groups

Sky-View   **GITHUB**   **Live Demo**

Real-time weather app built with React, Tailwind, and OpenWeather API — featuring time-based backgrounds, location-based weather, and 4-day forecast
